## Minutes:

1. Opening remarks
  - Ryan Sutton opened the session with welcoming remarks and introductions
2. Guest Speaker: Richard Filloramo gave a presentation entitled “New Details for Masonry Construction”. The purpose of this presentation was to highlight new details, materials and specifications for masonry construction. It addressed structural considerations and stressed the importance of coordination between the structural engineer and architect. Specific topics included: New Rainscreen Walls, New Adhered Veneer Systems, Masonry Veneers, AAC Walls, Flashing, Tops of Walls, Shelf Angles, Accent Bands, Columns, Beams, Single Wythe Masonry, Movement Joints, Design Criteria, Cavity Walls, Exterior CMU, Moisture Control and more.
  - A bound copy of the presentation and sponsor materials were provided to all attendees.
3. Closing remarks and adjournment
