

Meeting Notice

Join us for an educational presentation

LiteSteel Beams

Jerry Murphy, LiteSteel Technologies, will give a presentation that will highlight LiteSteel beams for use in residential and light commercial construction. LiteSteel beam is a cold formed steel beam that can be used in construction to achieve significant and measurable reductions in system costs, time, and complexity. Jerry will show how and why the use of LiteSteel beams has become popular with builders, architects, and engineers over the past several years.

DATE: Tuesday, May 3, 2011
