

Meeting Notice

September 25 – Reliable Truss Plant Tour

Please join us for a presentation and plant tour of Reliable Truss and Component's state-of-the-art, automated truss manufacturing facility. Tim LaChapelle, PE, will lead a discussion about the materials and fabrication process, and enlighten us on some of the lesser known services Reliable Truss/National Lumber provides. Tim will open the discussion for any technical wood topics or construction administration/engineer coordination questions, then lead us on a tour of their plant.

DATE & TIME:

Sept 25th – 4:00pm Start

FEE:

FREE for SEARI, AIA-RI, SEAMASS members and students

LOCATION:

Reliable Truss and Components
200 Welby Road
New Bedford, MA 02745

RSVP:

Please RSVP so that approximate head count can be provided to Reliable Truss ahead of the event.
